

CALL FOR THE SELECTION OF TEMPORARY RESEARCH PERSONNEL TO CARRY OUT SPECIFIC SCIENTIFIC AND TECHNICAL RESEARCH PROJECTS.

The COIE is requested to make a public call for the selection of temporary research personnel to carry out specific scientific and technical research projects to be funded, in accordance with the following:

RULES

FIRST.- PURPOSE OF THE CALL

The purpose of the call is the selection of research personnel (No. of post offered 1), to carry out the Project 'DEVELOPMENT OF THE LANGUAGE TECHNOLOGY BUSINESS ECOSYSTEM WITHIN THE FRAMEWORK OF THE 2024 ARTIFICIAL INTELLIGENCE STRATEGY AND THE PRTR', whose principal investigator is Mr / Mrs. Álvaro López García of the department / institute Cantabria Institute of Physics and its funding will be covered by the budget application 05.52.00.NC01.541A.649 corresponding to the following modality Funded by the Ministry of Digital Transformation and the Civil Service and the European Union's Next Generation EU/PRTR programme

SECOND.- FUNCTIONS AND TASKS OF THE POSITION

Responsibilities:

The successful candidate will join a multidisciplinary team comprising researchers, engineers and technical staff, and will be involved in support, administration and maintenance tasks for computing platforms and AI services used by the scientific community and external users.

Duties:

- To assist with the installation, configuration and maintenance of servers, workstations and computing environments used in artificial intelligence and data analysis projects.
- Participate in the management and monitoring of IT infrastructure, including Linux systems, storage and networks.
- Provide technical support to users in accessing and using computing resources and AI platforms.
- Carry out tasks relating to the preparation, organisation and validation of datasets used in scientific and technological projects.
- Collaborate on the deployment and maintenance of applications and services related to machine learning and artificial intelligence.
- Monitor the operation of systems and services, identifying incidents and helping to resolve them.
- Produce technical documentation, user guides and operating procedures.
- Contribute to the continuous improvement of the centre's services and infrastructure by proposing improvements and simple automation measures.

THIRD.- POSITION CATEGORY AND QUALIFICATION REQUIRED

TECHNICIANS - Higher Level Vocational Training responsibility V

Administration of networked computer systems

Multiplatform application development

Web application development

FOURTH.- REQUIREMENTS FOR APPLICANTS

Applicants must meet the following requirements:

1) Have Spanish nationality or have the nationality of a member state of the European Union or be from any of the states in which, by virtue of international treaties established by the E.U. and ratified by Spain, the free movement of workers is applicable. Likewise, applicants with a nationality other than that mentioned above may submit their application, provided they can prove that they are in possession of a work and residence permit at the time the contract is formalized.

2) To be in possession of the qualification required in this call. Documents issued abroad that are to be used in this procedure must be legalized in accordance with the current regulations (Management circular number 134).

3) Persons who have had a fixed-term contract or production circumstances contract for the same research project or who have been contracted for other projects in the last twenty-four months for a period exceeding eighteen months, taking into account the time of the present job offer, in accordance with the provisions of article 15.5 Royal Legislative Decree 2/2015, of 23 October, approving the revised text of the Workers' Statute Law, may not participate in the selection process.

4) Contracts signed prior to 31 December 2021 under Law 14/2011, of 1 June, on Science, Technology and Innovation, will not be taken into consideration for the purposes indicated in the previous paragraph (Additional Provision 23, section 1).

5) Qualifications

6) • Higher-level vocational training qualification in Networked Computer Systems Administration (ASIR), Multi-platform Application Development (DAM), Web Application Development (DAW) or equivalent qualifications in the field of IT.

7) Essential knowledge and experience

8) • Knowledge of Linux operating systems.

9) • Basic knowledge of server, network and storage administration.

10) • Experience in using co

FIFTH.- APPLICATIONS

In addition to registering for the offer through UC Placement Agency Portal (<https://web.unican.es/agenciacolocacion>), applicants must submit the following documentation to the department/unit within the 8 working days, counting from the day following its publication, or send all scanned by e-mail (aloga@ifca.es), indicating the offer to which it refers:

- 'Application form for calls for selection of research personnel', completed. Available on the web site of the placement agency.

- Photocopy of the National Identity Card, or equivalent document.

- Photocopy of the degree or proof of having paid the corresponding fee for issuance of the degree.

- Academic and professional curriculum vitae and supporting documents of the submitted merits.
